There are no restrictions on the number of times a file can be downloaded. Using file, you can circumvent those limits without paying to upgrade your teamchat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Our service is completely free for everyone. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. It is also allowed to link to the download page from websites and communities. File is free to use with no gotchasand no hidden fees. You don't need any special software installed to be able to download your files. Unfortunately, we can't make that part free. Keep your files private, or send your download links only to friends or family. We have no file size limit. Any file in any format can be uploaded and downloaded for free. So try our free and simple filehosting service now. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Files can be downloaded from any computer from our high speed servers. Alternatively you can choose to share your download links on blogs, forums and social networking sites. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music, documents, images, zip files and more). The cost of that data transfer is coveredby your internet service or the data plan on your phone. No account or credit card is required to get started. Simply upload your file and share the link. You cangive this download link to your friends by mail or instant messenger. You decide who you want to share your files with. If only we could, we surely would! Onthe other hand, using file can actually save you money. Files transferred the old-fashioned way tend to pile up and be forgotten abou
